Technical Specifications:

Table Top:	Stainless Steel
Max Loading Capacity:	500 lbs. (227kg)
Overall Dimensions:	45 in. L x 30 in.W x 36 in. H (1140 X 760 X 910mm)

Warning!

1. Maximum loading capacity is 500 lbs. Never overload!
2. Read and understand all instructions. Failure to follow the instructions may cause damage to the product and personal injury!
3. Before using the table, make sure the legs are firmly secured and locked in position.

Operation Instructions:

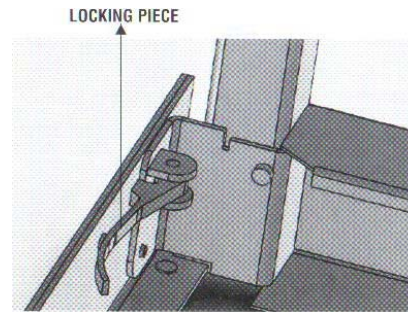

FIG. 01

1. Before using the table, lay the table on the floor upside down.
2. Unfold legs and secure the locking piece(#14) located near the leg in position. The legs should stand firmly upright. If a leg is not securely locked, it could fold unexpectedly and cause damage or injury. (FIG. 01 shows the locking piece in locking position)
3. After all 4 legs are secured in a standing position, turn the table right side up.
4. Lock Rotary Pin (#11) tightly.
5. Attach Adjustable Foot (#17) on the leg (#5). If needed, adjust feet on leg to level table.
6. To close and fold the table, reverse the above procedures.
